Evokes emotion. Sets the tone. Defines boundaries. Color accomplishes so many things in designs. But when it comes to color, something so subjective can be one of the most difficult parts of the design process.

We can help create the foundation for your space based on your current space or vision for a new space. Let us create a canvas to bring all the other design elements together cohesively.

What's Included?

- **Initial Consult** - We will meet in your space to understand your vision and take pictures.
- **Color Board** - We will offer you a color board for your interior or exterior space.
- **Paint Schedule** - We will provide paint selections and finish selection in electronic format to share with your contractor and/or painter.
